The Pittsburgh Gazette.

FRIDAY, MAY 4, 1866.

THE Republicans of Somerset are in the field with local candidates in advance of their brethren of all the other counties of the Commonwealth.

◆

THE feeling is growing in Congress that, so far as relates to the white population, *the* desirable point to reach is the exclusion of the rebel leaders from office.

◆

THE Fort Wayne railroad is trying the experiment of running a sleeping car from Chicago all the way to New York, so that passengers may be saved the trouble of changing cars.

◆

MR. H. J. RAYMOND, on the floor of the House, spoke strongly in favor of the Congressional scheme of reconstruction. He says the N. Y. *Times* does not represent his views of the subject.

◆

THE President has prohibited Gen. HOWARD from giving any information relative to outrages committed by Southern whites on the freedmen. Of course, "my Policy" appears best, the less information the people have of the actual condition of affairs.

◆

MR. D. A. WELLS, Chairman of the United Revenue Commission, expresses very strongly the opinion that the financial safety of the government consists in not adding to the public debt. That is precisely what all practical business men have seen for a long time.

◆

IT MAY be convenient for Republican bummers to know that if they desire appointments from President JOHNSON, they must get the endorsement of the member of the Democratic State Committee of the county in which they live. Plain people may not see it; but this is what is meant in court circles by fighting it out inside the Republican lines.

◆

THE awards to the Chambersburg sufferers, under the recent act of Assembly appropriating half a million of dollars for their relief, have been made, and the names of persons and the respective amounts are published in the *Repository*. The Commissioners appear to have performed their delicate duty to the satisfaction of all concerned. They make the aggregate losses $1,624,474.38.

◆

MANY SOUTHERN people are writing to members of the Senate and House in favor of the Congressional plan. Many other Southern men, now at Washington, approve the plan except the proposition to prevent rebels from voting until 1870. They take the same view on that point we did yesterday, that the rebels will vote, notwithstanding any restrictions put upon them.

◆

THE Monitor Manayunk, at Cairo, made a trial trip April 27. She ran to Mound City, eight miles, in one hour and twenty minutes, and ran the same distance, returning with the current, in thirty-two minutes. The machinery of the Manayunk was built by Snowden & Mason, of Brownsville and Pittsburgh, Pa. Her turrett is supplied with two 15-inch guns, each weighing 42,960 pounds.

◆

THE *West and South*, a radical Democratic journal of Cincinnati, does not treat President JOHNSON with the respect due to his exalted station. This uncompromising Copperhead says that the President "multiplies his old Tennessee stump speeches from the front steps of the White House. It is the endless repetition of ANDY JOHNSON, and signifies only that a small man in a large place can make an unearthly noise!"

◆

THE AUBURN (N. J.) *Journal* recently contained an article, dictated if not written by MR. SEWARD, in which the conclusion is reached, that it may reasonably be expected that in 1868 the South will choose electors of President, and if it should so happen that these electoral votes, together with those of the Northern Democrats, "are enough to elect a President and Vice-President, and they are not allowed, there will be political trouble of a very formidable character," and with President JOHNSON in command of the military the candidates so elected could not be kept out of office.

The Constitutional Amendment of the Committee of Fifteen.

TARENTUM, May 2, 1866.

EDITORS GAZETTE:—Having noticed an article in last evening's *Chronicle*, copied from the New York *Times*, and which was evidently intended to misrepresent the subject on which it treats, I beg leave, through your columns, to show both its sophistry and *falsity*. In commenting on the plan presented to Congress by the Committee of Fifteen, the editor of the *Times* says: "After asserting and maintaining that the rebel States have no existence the Committee frame a Constitutional amendment, and then refer it to the same States for ratification; thereby acknowledging their existence, and soliciting their assistance." The editor of the New York *Times*, who made, and of the *Chronicle*, who quoted this paragraph with approval, knew they were uttering that which could not be truthfully spoken. That amendment must be ratified by those States it is true, but it will be *after* it has received the necessary approval to give it validity from the States which *now* compose the Union. *Their* ratification is a condition *precedent* to their admission into the Union. If this amendment passes Congress, and is ratified by three-fourths of the States *in* the Union, those rebel States cannot resume the rights and privileges of States *in* the Union, except by concurrence in it. Their approval is not asked for, nor is it necessary to give it validity. The people of the United States by this, say to the South, "We wish you restored to your former standing in the Union; *you* profess a desire to return—prove your sincerity by accepting the conditions offered, and the work is done." This is all there is of it. It is so plain that "he who runs may read," but those who are running *backward* cannot read it rightly, and they assert that every one who is going *forward* in the work of justice to *all*, and resolved that freedom shall rule over the length and breadth of the land, are "extremists, radicals, madmen." If I had time and space I would ask those gentlemen of the *Times* and *Chronicle*, if those States are not out of the Union, what right had the President to say to them, "call conventions, do thus and so and I will receive you." If they are in they are in without qualification or condition; if they are out, Congress, and not the President, is the only door through which they can reenter the Union. There are other questions I would like to ask, but those men are so befogged with their left handed measures that it would be useless to ask an explanation of what they are doing or how they came there. RADICAL.

By reference to advertisement of the Virgin Gold Mining Company of Colorado on 2d page, it will be found that a very favorable opportunity is there offered of securing an "original" interest in this region of inexhaustible wealth.

Professor Edward N. Kent, of the New York Assay Office, who had visited this district, says:

"As to the extent of the gold mines of Colorado, I am not prepared to give an estimate, as I found enough to fully employ my time within a radius of five miles of Central City, (the location of the Ledges of this Company,) but as to the richness of THEM, I have no hesitation in saying, *that I believe them to be the richest ever discovered*. With science, capital, and the Pacific Railroad, Colorado is destined in my opinion, to rival or supersede California and Australia, and become the El Dorado of the World."

The large basis of this enterprise—its choice Ledges—as well as its fair and equitable features are such as to commend it to the attention of all those having surplus funds for investment. As "original interests" in this Company can now be had at $100 each, those wishing to secure them should at once send in their subscriptions.

To the Debilitated and the Decrepid.
For general debility and exhaustion of the powers of nature, whether occasioned by sickness, fast living, constitutional decay, old age or any other physical or mental cause, the one thing needful and indispensable is Hostetter's celebrated Stomach Bitters. When the fire of life seems to be absolutely dying out in the system, and the mind, sympathizing with the body, is reduced almost to a state of imbecility this mighty Restorative seems, as it were, to lift the sufferer out of the slough of despond, and recruit and reinvigorate both the frame and the intellect. An old farmer in the Valley of the Monongahela writes thus to Dr. Hostetter: "I can compare the operation of your Bitters upon me to nothing but the effect of a rain after a long dry spell in the fall of the year. The rain falling on the meadows starts the second crop of grass, and your wholesome medicine seems to have started a second crop of life and spirits in me." And this is truly the effect of this grateful and powerful preparation. Ladies of weak constitution, or whose strength has been impaired by sickness or age find it a most efficacious and delightful Tonic, and it is administered with great success in marasmus or wasting of the flesh, to young children. In fact, it is a much safer and surer cordial for the nursery than anything advertised specially for that purpose.

Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

Persons desiring to purchase a good suit of clothes would do well by giving Mr. Weier a call.

CARGO OF NEGROES LANDED IN HAVANA

NEW YORK, May 3.—Excitement prevailed yesterday afternoon in Wall street, owing to the discovery of a number of forgeries of railroad bonds and checks, to the amount of nearly $300,000. Several banks and prominent business men are reported to have been victimized by the operations of the forger, who is supposed to be a Mr. John Ross, lately doing business as a broker in Exchange place.

Advices from Rio Janeiro of April 3d, state that it is believed the issue of the Bank of Brazil has been increased, the government guaranteeing it, as the ten millions of gold in its vault will be withdrawn to meet the expenses of the war.

Two Peruvian iron clads arrived from England and captured the Spanish schooner Dorothea, using the United States flag. Peruvian iron clads are daily reported from the United States. News of an attack on Paseo de Patria is hourly expected. It is rumored that the Paraguayans advanced into Missions to attack the Brazilian division under Baron de Porto Allegre.

The U. S. Sloop-of-war Kearsage was at Lisbon, Portugal, on the 12th of April. On her passage from Seirod Leon, seven officers and seven men died of yellow fever, as follows:—Surgeon, Benj. Weelan; Assistant Engineers, H. Bullard, J. Hoops; Third Assistant Engineers, Richard F. Edwards, Elisha R. Tyson; Mates, Samuel Davis, Samuel Paine. Names of the seamen not given. There was on the 12th but one case on board, and that was not convalescent.

The *Herald's* correspondence from the City of Mexico, dated April 11th, says: The siege at Mazatlan still continued, with occasional skirmishes. The Liberal Commander, Mendez, was found while sick, by the French, and on refusing to surrender, was shot in his bed. Three of the most influential citizens in the neighborhood were also shot, and heavy fines imposed upon others, among whom were the sons of the murdered Mendez.

The Ross Forgery—Another Death from Cholera in New York.

NEW YORK, May 2.—There is no new developments in the Ross case. It is said that all the victims will not lose. The amount is fixed at about half a million of dollars. Ross is still at large.

The loss by the Ross forgery foots up $365,787. The Michigan Central Bonds held by Groesback & Co. are supposed to be spurious, but it is not certain. The loss by Cronise & Co. and Black & Spaulding consist of $20,000 each in gold, which they sold to Ross, taking in payment a forged check on the Union Bank. Twenty of the alleged forged Michigan bonds are held by this Bank. The Continental Bank paid a forged check for $64,062. Albert Speger, Howe & Marcy, and Fourth National and Commonwealth Banks have sustained no losses, though the Continental Bank has made a demand upon the Commonwealth Bank for a return of the amount of the above mentioned check.

Lucy Rushton's Theatre was sold at auction this morning. A Mr. Allen was the purchaser.

Another woman has died of cholera in this city. She resided in a filthy tenement house in Mulberry street.

NEW YORK, May 3.—The *Post's* special says it is the opinion of the chairmen of the Ways and Means and Finance Committees that Congress cannot adjourn before the first of July.

A woman in Mulberry street, whose death by cholera was reported this morning, is now said to be in a fair way of recovery.

Reception to Lord Monck—The Governor's Reply.

OTTOWA, C. W., May 3.—There was a grand reception last evening to the Governor General, Lord Monck, on the occasion of his arriving here to take permanent residence. It was a public holiday. Triumphal arches were erected, and the volunteers, firemen and citizens turned out to meet him on his arrival here. The Mayor read an address of welcome and pledged the city of Ottawa, in common with the rest of the people of Canada, to defend the rights and liberties and the British connection.

The Governor replied in a stirring speech, and said that the armed demonstrations which circumstances compelled the Provinces to make were not without benefit. They had given a vigorous national life to British America, which the people were both willing and able to defend. The same feeling in Nova Scotia and New Brunswick gives an earnest of the increased vitality from the political union which he confidently expected would soon take place. The Home Government had signified its unqualified approbation of the measures for the defence of the Provinces, and had promised to send all the reinforcements that may be asked.

Other addresses and replies followed in the same strain.

Reconstruction Testimony—Frank Blair's Rejection.

WASHINGTON, May 3.—Additional testimony from the Reconstruction Committee is reported to-day. Among those examined is Sidney Andrews, of the Boston *Advertiser*, Bedford Brown, of North Carolina, and Charles G. Baylor, of Georgia. The evidence is mainly confirmatory of that previously published.

The reason why General Frank Blair was rejected by the Senate, has not transpired. Much surprise is manifested at the result, among others by Lieut. General Grant, who says that to him the country is indebted more than any other man that Missouri was prevented from seceding. He spoke with earnestness of the important military services of General (then Colonel) Blair, at that time, and since has rendered the country.

It is not true as stated, that the new Tax bill removes the tax on matches, or that there is any intention of removing it.

From Memphis—The City Quiet—Explosion of a Towboat.

MEMPHIS, May 3.—The city remains quiet up to 9 o'clock. The negro soldiers recently mustered out were paid off in Fort Pickering to-day. They threaten to burn the city to-night. Great uneasiness is felt. They are kept in the fort by a portion of the Sixteenth Regulars.

Gen. Stoneman this afternoon served a notice upon the Mayor, Council and county officers, forbidding the assembling of any bodies of armed men, black or white, except the police, so far as they were relied upon to preserve peace.

A large number of negroes were arrested to-day and found heavily armed.

The tow boat Tigress exploded both boilers near Fulton last night, killing the captain and wife, the first engineer, carpenter, and three deck hands, and scalding several others.

Tennessee Franchise Bill Passed—Henderson's Trial.

NASHVILLE, May 3.—The Senate passed the franchise bill by a vote of thirteen against six. It is now a law, and disfranchises over nine-tenths of the people of Tennessee.

The cross-examination of Hays in Henderson's trial elicits the fact that a letter was sent Henderson, threatening the exposer, and demanding thirty thousand dollars, which the witness said was written by the instruction and sanction of Capt. Voorhees. General Bendit, who tried the Chicago conspirators, was present during the trial.

Pottery and Paper Mill Burned.

FORT EDWARD, N. Y., May 3.—To-day, about 6:30 o'clock, a fire broke out in the pottery owned by Saterlee & Morris. The fire soon reached Howland, Palser & Co's paper mill, together with a large quantity of wood and straw; all entirely destroyed. The loss to Howland, Palser & Co. is fifty thousand dollars; insured for $18,000. Saterlee & Morris' loss is $15,000; insured. Good engines from Sandy Hill, Gleas Falls and Saratoga were soon on hand and succeeded in holding it from spreading.

Extensive Robbery in New York.

NEW YORK, May 2.—The office of Messrs. Galtsberger & Co., No. 52 New Bowery, was on Tuesday night, robbed of three certified bills of exchange, payable in gold, amounting in the aggregate, to $15,347 72 and one hundred dollars in Treasury notes. A nephew of Mr. Galtsberger's partner, named Duany, was arrested, and a portion of the stolen Treasury notes found in his possession.

The Negro Riot at Memphis.

MEMPHIS, May 3.—About thirty houses occupied by colored people, and all the school houses South of Memphis, were pulled down or burned last night. There were ten killed during the day and night. Everything is quiet this morning. It was hoped that order would be restored. The negroes nearly all fled to the woods last night, but are returning this morning.

Trial of Fenian Prisoners.

CORNWALL, C. W., May 3.—The examination of Fenian prisoners was resumed to-day. Lieut. Col. Wheeler gave evidence for the prosecution. He turns out to be a spy. After hearing counsel for both sides, the Bench was divided. There was a majority for committal. Judge Jarvis, the chairman, dissented. This throws the trial over till fall.

Bill Approved.

WASHINGTON, May 3.—The President has approved the bill authorizing and empowering the Secretary of the Treasury to remit duties levied on produce shipped from a port of the United States to a port of the United States, via Canada, if the said produce was actually in transitu and detained by ice when the recent Reciprocity treaty with Canada expired.

Ohio Union State Convention.

CINCINNATI, April 3.—A call for the Ohio State Convention, to be held in Columbus, June 20th for nomination of candidates for Secretary of State and Judge of the Supreme Court, was made yesterday by the Union Committee.

FROM FRENCH WEST INDIA ISLANDS

The Cholera at Guadaloupe.

ST. DOMINGO AND VENEZUELA ADVICES

NEW YORK, May 3.—Advices from the French West India Islands, dated at Martinique and Guadaloupe, say that fifty members of the Colonial Legislature had determined to demand from France the same laws and legislative power as are enjoyed in the mother country.

In Guadaloupe the deaths from cholera averaged seven and one-fourth per cent. of the population. The disease was less prevalent.

The immense production of beet root sugar in Europe alarmed the planters of both islands.

Our advices from St. Domingo, are dated at St. Domingo City, to the 14th of April. The late revolutionary movement on the southern frontier of the Island, induced at the very moment of its suppression a large insurrectionary party to rise in another quarter and suddenly seize the towns of San Cristobal, Barri and San Jose De Acoa. The government acted promptly and with energy. Troops were marched rapidly from different points, and concentrated so judiciously that the insurgents were dispersed. Two of their most active leaders escaped and order was restored.

After the 11th of April it is optional with the importers of merchandise in St. Domingo to pay the duties in gold, silver or Treasury notes. The gold ounce value being taken as the standard when the last named currency is issued.

The news from Venzuela, dated April 7, intimates that the Republic was very likely to sympathize with Spain in the war against Chili; the Venzuelian authorities recollecting that their ports are completely defenseless, and the people remembering how their poorer countrymen were received in the Spanish West India Islands as privileged refugees during the late troubles at home.

The new gold mines of Neuva Providencia are said to yield abundantly. Military squabbles about State Rights claims disturbed the territory at some points.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON, May 2, 1866.

SENATE.

Mr. Chandler, from the Conference Committee on the Cuban Telegraph Bill, made a report, which was agreed to.

A bill to pay John Ericsson $13,930 for services in planning the war steamer Princeton, was called up by Mr. Anthony and passed.

The bill to reimburse the State of West Virginia for her expenses in calling out and equipping troops, was called up by Mr. Van Winkle. The amount called for is $398,548. It was passed.

Mr. Wilson, from the Committee on Military Affairs, reported the following joint resolution:

Resolved, That the Secretary of War be and he is hereby authorized and required to cause to be cancelled the volumes of the roster of volunteers already printed, and that the roster compiled or directed by the joint resolution approved March 2d, 1865, be published in accordance with a plan submitted by the Superintendent of Public Printing.

The bill to regulate commercial and postal communication between the States was taken up, on motion of Mr. Sumner.

Mr. Howard took the floor in defense of the bill and spoke at length.

Mr. Poland offered a resolution instructing the Secretary of the Senate to recall from the House the Post-office Appropriation bill.

Mr. Sumner inquired what was the object of the resolution.

Mr. Poland said he wished to move a reconsideration of the amendment in relation to the Presidential appointing power. The resolution was adopted.

Mr. Howe, taking the floor on the Postal Communication bill, said there had not been a proposition introduced in the Senate since he became a member of it that had not found some one to denounce it unconstitutional. Before the pending bill had been fairly offered to the Senate, it had been denounced as unconstitutional. If it be true that the State of New Jersey had a right to limit the commerce of that State to a single line of railroad, who controls the regulation of commerce between here and New York? One of the objects in the formation of the Union, he said, was the regulation of commerce by the Federal government. Admitting the law to be that only the legislature of the State of New Jersey could authorize the construction of a railroad through that State, he denied the right of New Jersey to exact what conditions it pleased on the road when built. This was not a question of regulating toll. It was a question of enabling commerce to choose between different highways. The powers of the State on this subject must be exercised in subordination to the powers of the nation. This had been settled by the Supreme Court.

Mr. Cresswell offered an amendment to the bill, giving Congress the right to alter, or amend, or repeal it at any time, and spoke against the bill, and reviewed the arguments made in favor of it by Mr. Sumner during the last session. He said the pending bill was but one of a great many of the same kind soon to follow, and referred to a measure now pending in the House for the authorization of a railway between New York and Washington. He challenged either Mr Howe or Mr. Sumner to show a single instance in which authority was granted Congress. There were two classes of powers granted the General Government—one as between the States as States, and the other as between States as a Union and foreign countries. The exclusive jurisdiction of a State over its own territory had never been denied.

Mr. Cresswell read from Elliott's debates, and from Jefferson, Madison and Hamilton, to show that, according to these authorities, the General Government had no right to interfere with the internal affairs of a State in the manner contemplated in the bill now before the Senate. He looked upon the bill as a vital blow at the great railroad interests of the country. Its effects would be disastrous upon a great interest which had expended in the last ten years $854,300,684, and constructed 22,204 miles of road. Maryland had expended $3,584,400 in railroads.

Mr. Sherman said the Baltimore and Ohio railroad was extremely liberal in the matter of transferring passengers in the city of Baltimore.

Mr. Cresswell said he was not the baggage-master of the Baltimore and Ohio railroad, and could not say how that was.

Mr. Sherman—But you spoke of the liberality of railroads in Maryland.

Mr. Cresswell—I spoke of the liberality of the State of Maryland in regard to railroads.

Mr. Johnson spoke of the service rendered to Government during the war by the Baltimore and Ohio railroad. He said it was recorded by the late President as invaluable.

Mr. Sherman—And the railroad system of Maryland adds a source of great complaint and annoyance to passengers. You can't check a trunk west from here except by the Baltimore and Ohio; nor can you buy a ticket for any other route except by going to Baltimore, and then, after traveling through that city, taking another road.

The Post Office Appropriation bill having been returned to the Senate, Mr. Poland entered a motion to reconsider the vote by which it was passed. He looked upon the amendment put upon that bill as revolutionary. Congress might as well refuse to appropriate money to pay the salary of the President as refuse to pay the salaries of officers appointed by the President. He wished his motion to lay over until a bill, now in course of preparation, in reference to appointments, was presented to the Senate.

Mr. Cresswell resumed the floor on the Railroad Bill.

The consideration of the Post Office Bill was fixed for Monday next at one o'clock.

The Senate, at 4:30 P. M., adjourned.

HOUSE.

Mr. Wright withdrew the motion made by him yesterday, to lay on the table the motion to reconsider the vote rejecting the Army bill, in order to move its re-committal to the Committee on Military Affairs.

Mr. Chandler renewed the motion and called for the yeas and nays.

Mr. Wright asked the Speaker whether the success of that motion would not have the effect of killing the bill.

The Speaker answered affirmatively, but said that was a matter for the House to determine. The House refused to order the yeas and nays, and the motion to lay on the table was lost. The vote rejecting the bill was reconsidered.

Mr. Wright then moved to recommit the bill to the Committee on Military Affairs.

Mr. Ross moved instructions to the Committee to report a bill for an army of not more than thirty-five thousand men.

Mr. Schenck said that would turn adrift about eight thousand men of the present regular army. He hoped no such instructions would be given.

Mr. Ross' motion was then recommitted and ordered to be printed as amended.

Mr. Stevens asked leave to introduce the following resolution:

Resolved, By the Senate and House of Representatives in Congress assembled, that the Congress of the United States of America has learned with deep regret the attempts made upon the life of the Emperor of Russia by an enemy of emancipation. The Congress sends their greeting to His Imperial majesty, and to the Russian nation, and congratulates the twenty millions of serfs upon the providential escape from danger of the Sovereign to whose head and heart they owe the blessing of their freedom.

Mr. Ross objected, unless the joint resolution was referred to the Committee on Foreign Affairs.

Mr. Boutwell, from the Reconstruction Committee, reported the testimony in reference to the State of Georgia.

Mr. Conkling, from the same Committee, reported the testimony in reference to Virginia, and North and South Carolina, which were laid on the table and ordered to be printed.

Mr. Julian offered a resolution, which was adopted, requesting the President to communicate any information he has concerning the discrimination made by the so-called Maximilian government of Mexico, against American commerce, or commerce from particular American ports.

The Speaker presented a communication from the Secretary of War, transmitting, in compliance with the resolution of April 10th, the report of the Advocate General in relation to the number of certain Union soldiers belonging to the First and Second North Carolina loyal infantry, which was laid on the table.

The House proceeded to the consideration of reports from the Committee on Territories.

Mr. Ashley, from the Committee on Territories, reported a substitute for the House bill to amend the Act of May 26th, 1864, providing a temporary government for Montana. The first section authorizes the Government to reapportion the Territory, and the second section amends all the acts of the so-called legislative assembly, which met in the city of Virginia on the 5th of March, 1866, and forbids the payment of money to the members thereof. The substitute was agreed to, and the bill as amended was passed.

Mr. Ashley also reported back the Senate bill, passed March 14th, enlarging the boundaries of the State of Nevada, by including a part of Utah and Arizona.

Mr. Ashley reported an amendment providing that all possessory rights acquired by citizens of the United States to mining claims in the Territory added to Nevada, shall remain as valid existing mining claims. The amendment was agreed to.

Mr. Rice, of Maine, offered an amendment to strike out the part adding a portion of Arizona to Nevada.

In response to a question by Mr. Hooper, of Utah, Mr. Ashley stated that the bill took from Utah one degree west, leaving Utah still with 88,000 square miles, instead of 106,000 square miles. He added that under the bill the area of the Territories would be: Nevada, 104,000 square miles; Utah, 88,000 square miles; Arizona, 121,000 square miles; New Mexico, 121,000 square miles; Colorado, 104,000 square miles.

Mr. Harper, of Utah, opposed the bill on the ground that the transfer of people from one government to another, reduced them to mere serfs. He therefore entered his solemn protest against the bill. The people of Utah were the first to make a path from the Missouri river to the center of the continent.

Mr. Goodman, of Arizona, opposed that part of the bill affecting the territory of Arizona.

Mr. Ashley stated that Brigham Young told him last summer that he had no objection to the proposed dismemberment of Utah, as there were few if any of his people living in that portion of it.

Mr. Ashley, of Nevada, supported the bill, and said that the Mormons were averse to mining, and that the citizens of Nevada had discovered and were working the mines in Utah, and did not wish to be under the control of that Territorial Government.

The amendment offered by Mr. Rice was rejected, and the bill passed.

The bill to admit Colorado into the Union, was then taken from the Speaker's table.

The House refused by a vote of 29 to 100 to lay it on the table, and refused to commit it, by a vote of 61 to 74. The bill was then considered.

An amendment offered by Mr. Washburne, of Illinois, providing that the act should not take effect until the State of Colorado had struck the word "white" out of its Constitution, was rejected; yeas 36, nays 95,—the delegates voting nay. The bill to admit Colorado was then passed without amendment by a majority of over 20.

Mr. Ashley, of Ohio, reported back a bill amendatory of the organic act of Washington Territory, which was considered and passed.

Mr. Rice, of Maine, reported back a joint resolution to facilitate communication with certain Territories.

After some debate the joint resolution passed. The following are its provisions: That whenever any loyal citizen of the United States shall make and establish an artesian well at places where water cannot be procured by other means on the line of any mail routes in New Mexico, Arizona, Colorado and the Colorado district of California, at least ten miles distant from any spring or stream of living water upon such route, and a like distance from any well which may be established thereon by virtue thereof, he shall be entitled to one section of the public land, not including mineral lands embracing such well, the same to be marked out and designated in a compact form by such citizen, and upon filing with the Surveyor General a sworn notice of the fact that such well has been established, with a particular description of the premises so marked out and designated, the same shall be treated as reserved land, and after the lapse of three years from the date of such establishment, and upon satisfactory proof made to the said Surveyor General in conformity to the foregoing stipulations, and that pure water from such well has been constantly furnished without charge to the public traveling upon such route, the inceptive right of the claimant shall be affirmed, and upon the extension of the lines of the public survey, the boundaries of such section shall be adjusted according to the lines thereof.

SEC. 2. And it is further resolved, that effect shall be given the foregoing resolution by the Commissioner of the General Land office, who shall have full power to revise and finally determine all rights and claims arising under the same, and to furnish evidence of title to such reserve by patent or otherwise, with such condition incorporated therein as may be necessary to perpetuate the purpose of the grant, provided that no more than 640 acres shall be granted in the case of any one well, and provided further that no grantee or beneficiary under this act shall be allowed to enter any lands under any homestead act of the United States.

The Speaker presented a message from the President in answer to the resolution of the 23d of April with a report of the Secretary of War, stating it to be incompatible with the public interest to communicate the report by General Smith and James T. Brady of their investigation at New Orleans. It was laid on the table.

The Senate bill for the relief of certain contractors for the construction of vessels of war and steam machinery was taken from the Speaker's table, read twice, and on motion of Mr. Washburne, of Illinois, referred to the Committee on Claims.

The Senate bill to authorize the construction of certain bridges, so as to establish them as post roads, was taken from the Speaker's table, read twice, with amendments looking to the erection of bridges at Keokuk and other points on the Mississippi, offered by Messrs. Kasson and Wilson, of Indiana, and, after considerable debate, referred to the Committee on Post Offices.

The Senate joint resolution, extending the time for the completion of the Union Pacific Railroad Eastern Division, was taken up.

Mr. Stevens moved to amend by adding a section extending for two years the time for commencing and completing the Northern Pacific Railroad, and all its several sections.

The amount was agreed to and the joint resolution as amended was passed.

Mr. Eldridge introduced a joint resolution explanatory of the act of May 5, 1864, granting lands to aid in the construction of certain railroads in the State of Wisconsin, which was read twice and referred to the Committee on Public Lands.

Mr. Upson introduced a bill to amend section 2 of the act authorizing the Legislatures of Illinois, Arkansas, Louisiana and Tennessee to sell the lands heretofore appropriated for the use of schools in these States, which was read twice and referred to the Committee on Public Lands.

Mr. Lawrence, from the Judiciary Committee, reported back adversely the petition of the citizens of Frederick county, Va., to be annexed to the State of West Virginia, which was laid on the table.

Mr. Darling gave notice that a bill directing the Secretary of the Treasury to refund to the proper party or parties the amount of taxes paid under Section 7 of the act to increase the Internal Revenue and for other purposes, passed March 7, 1864, upon spirits imported prior to the date of said act.

At 4 o'clock P. M., the House adjourned.

From New Orleans.

NEW ORLEANS, May 3.—President Johnson ordered Gen. Canby not to interfere with the United States Court. The President first ordered Canby to make full report by telegraph of the conflict upon which he acted. The court reopened immediately.

By the instructions of the President, General Canby released the cotton held by the military and turned it over to the United States Marshall.

CITY AND SUBURBAN.

"The Silver Palace."

Some time since we had the pleasure of making an excursion to Rochester in a splendid sleeping car, called "The Silver Palace," which was built under the superintendence of Jonah Woodruff, Esq., in the shops of the Pittsburgh, Fort Wayne and Chicago Railway, for the Central Transportation Company. We learn that the "Palace" is now making a regular weekly trip between Chicago and New York, and gives unmitigated satisfaction to all who travel in it.

Mr. Woodruff, the successful and enterprising Superintendent of the Central Transportation Company, was told by a prominent railroad President in this city a few days since, that he must go to work and build another "Silver Palace," as one was entirely insufficient to meet the demands of excursionists. This is a high and well merited compliment to Mr. Woodruff, and shows that the "Silver Palace" has turned out to be, as we predicted, a complete success. It affords excursionists all the privacy and comfort of a private dwelling. Silver palaces cost something these times, but we think the investment would pay, and we hope to hear, at no distant day, that Mr. Woodruff has embarked in the great work of building another palace.

Assault with Intent to Kill.—Two colored men, named William Wallace and William Jones, residents of the classic part of the city known as "Hayti," got into a difficulty at the house of Wallace, when he became exasperated, and seizing a razor made a thrust at Jones, but he defended himself by warding off the blow with a knife, which he drew just in time to save himself from being cut. Jones visited the office of Alderman Lynch, of the Third Ward, and made an information of assault with intent to kill. A warrant was issued.

Another Distillery Seized.—In the United States District Court yesterday, District Attorney Carnahan filed a libel of forfeiture against the distillery of Newberry Short, situated in Chatham township, Tioga county. The distillery was seized by the District Collector of Internal Revenue some days since for a neglect on the part of the owner to make returns as required under the Revenue Law. A monition was ordered to issue by the Court, directing the owner to appear on the 21st inst., and answer in behalf of the property libelled.

Bulk Boat Lost.—A bulk boat, loaded with oil, the property of David R. Casey, was "stove in" on Wednesday, one mile above McKeesport, by coming in contact with a rock. The loss will be about $3,000. Mr. Casey is a young man, just commencing business, and the loss falls heavily upon him.

The Mitchell-Boyle Shooting Affray—Tables Turned.

John Mitchell, charged with assault and battery with intent to kill John Boyle, of South Pittsburgh, was brought before Acting Mayor Straub, yesterday afternoon, for a hearing. The shooting, as our readers will recollect, occurred on Saturday night week, on the Monongahela bridge, and owing to the serious nature of the wounds inflicted Mitchell has ever since been held in custody. The ball entered the right breast, between the third and fourth ribs, passed through the cavity of the chest in an oblique direction, penetrating the outer edge of the lung, and lodging in the muscles of the back. The ball was extricated by a physician, soon after the occurrence, and Boyle has so far recovered as to be able to walk about the streets. On the hearing, some half dozen witnesses were called by the prosecutor, but so far from helping him in the least they made out a strong case for the defendant. The substance of their testimony is about this: Boyle was quite drunk in the evening, before supper, and actually attempted to provoke a quarrel with Mitchell, who is a much smaller and weaker man. He "squared off" at him, urged him to stand his ground, and pursued him some distance. Mitchell then drew a pocket knife, and threatened to cut Boyle's heart out if he did not desist. Some friends interfered, and the difficulty ended by Mitchell taking refuge in Mr. Welsh's store. After supper the parties again met at the end of the bridge, when the assault was again renewed by Boyle, without any apparent provocation. He "made at" Mitchell, knocked his hat off, and was endeavoring to get him to stand, when Mitchell drew a revolver and threatened to shoot him, at the same time retreating as Boyle advanced. Mitchell then fired, when Boyle cursed him not to fire over his head to scare him, but to shoot at his heart. Mitchell soon after fired a second shot, when Boyle fell, the ball going as close to the heart as was desirable. The witnesses all corroborated one another as to the main facts, and there was not a title of evidence going to show that Mitchell acted otherwise than in self-defense.

Thomas M. Marshall, Esq., conducted the case for the defense, and District Attorney Duff appeared for the Commonwealth. The counsel both declined to address the Court, when the Alderman discharged the case as to Mitchell, at the same time informing Boyle that had it not been for his own bad conduct in "hunting" for a fight there would have been no shooting.

Mitchell then instituted a charge of surety of the peace against Boyle, alleging that he was afraid he would do him some bodily harm. Boyle was required to give bond in the sum of $300 to keep the peace, and Mitchell was held in his own recognizance in the sum of $100 for the same purpose. Boyle not being able to secure the requisite bail, was locked up—the tables being thus effectually turned.

Amusements.

ACADEMY OF MUSIC.—By far the most brilliant audience within the walls of the building was present last night at the Academy of Music to witness the presentation of the magnificent Opera of Der Freischutz. Never has any piece been put upon the stage in Pittsburgh with equal success and brilliancy. Madame Johannsen was in splendid voice, and her powers were never more completely developed. M'lle Sophia Dzuba looked handsomer, sang better, and became a greater favorite than ever. Even when her other features are in a perfect repose, her eyes continue to laugh. We believe it would be impossible for her to be serious. Messrs. Himmer, Weinlich, Steinecke, Lehman, Reinshein and Kohn are all deserving of special notice. Nothing could have exceeded the manner in which they rendered their respective parts. The incantation scene was never before equalled upon any stage in this city, and we doubt whether it could be very much surpassed anywhere. The magnificent shower of fire made the nervous portion of the audience tremble, but they soon regained their wonted composure. The scene could only be seen to be appreciated. It was beyond description in a newspaper article. Suffice it to say, the immense audience showed their appreciation of the whole performance by most enthusiastic applause.

To-night, however, the performance promises to eclipse anything yet produced. Gounod's great production of "Faust," is the attraction, and the cast is certainly a most powerful one. Hermanns will appear as Mephistopheles, Franz Himmer as Faust, Mad Rotter as Marguerita, M'lle Dzuba, with her dancing eyes, as Seibel. Herr Steinecke appears as Valentine, Otto Lehman as Wagner, and Madame Berger as Martha. It will be seen that, in addition to the favorites who have before been welcomed, we are to have others whose voices have not yet been heard here, but who come to us with the highest testimonials, and the universal endorsement of the Eastern press. The splendid chorus will be rendered doubly effective to-night. In fact, we have the testimony of the New York press, which says that the rendition of this production alone stamps Grover's troupe as the greatest artists in the world. We do not suppose there will be a vacant seat to-night.

OPERA HOUSE.—The young and accomplished actress Miss Lotta is drawing splendidly. Last evening she appeared in three pieces, and was received with marked favor. To-night the burlesque spectacle entitled the "Seven Daughters of Satan" will be presented, in which she will appear as Tartarina, with songs, banjo solo and dances.

THE GREAT CONSOLIDATED.—Sam Sharpley's Minstrels and Tony Pastor's Combination, consisting of twenty-five artists under the direction of the inimitable Sharpley, are meeting with great success at Masonic Hall. They will give but two exhibitions more, their engagement having been limited to four nights in all. This is a first class troupe, and we know of no better way of spending a pleasant evening than by witnessing their performances, which are of a most diverting character, and replete with fun.

PITTSBURGH THEATRE.—Edwin Adams drew a good house last night to witness his masterly personation of Hamlet. This evening he takes a benefit, when the sterling four-act drama of "The Dead Heart" will be given, in which he assumes the character of Robert Landry. The friends of this favorite actor should give him a bumper, and we doubt not they will.

Union Depot Hotel.

The stars and stripes were flung to the breeze yesterday on the roof of the new Union Depot Hotel of the Pa. R. R. The signification of the unfurling of the national Banner was, that "mine host" was "at home" and ready to receive guests. The hotel was formally opened about half past one o'clock in the afternoon, when a number of officers connected with different railroads, some of the gentlemen connected with the press, and not a few newly arrived travelers sat down to an excellent and substantial dinner. There was no effort at display. The dinner was designed to be a specimen of what the hotel will furnish to its guests every day; and should this be the case the Company may rely on a very liberal patronage. No one will allow himself to be stowed away into a crowded omnibus and hauled a distance of one or two miles at an expense of a dollar or more, when for the same amount he can be supplied with an excellent meal within a step of the train.

The Pennsylvania Railroad Company have always shown great liberality in the management of their affairs, and we have no fears that their hotel will be made an exception. The culinary developments yesterday and general arrangements showed that the company were very fortunate in the selection of officers to superintend the hotel. Mr. Ira B. Church, the Superintendent, who is ably assisted by Mr. E. P. Miller, has already given evidence of his eminent fitness for the position, and our own townsman, Mr. Thomas Graham, manages the financial department with such ease and grace as to convince all that he is master of the situation.

Drowned in the Youghiogheny.—A young man named Henry Stark, a native of England, and aged about twenty years, was drowned in the Youghiogheny river near Guffey's Station a few days since. He was crossing the river in a small "flat," and had reached the abutment on this side of the river, but in attempting to get out, slipped and fell into the river. The strong current soon washed him out from shore, and before assistance could be rendered he was drowned.

Boy Run Over.—Yesterday afternoon a lad of about eight years of age, named Albert Parke, son of Richard Parke, residing at No. 399 Penn street, while crossing the street, was run over by an express wagon. Both wheels passed over him, one across his breast and the other across his ancle. He was taken into the house, and Dr. Reiter was called in and attended his injuries. No bones were broken, although some serious injury was sustained, but not of a dangerous nature.

Serious Accident.—Yesterday noon a teamster, who had just dismounted from his wagon, was standing on the side of the track of the Steubenville Railroad on Try near Second street, when a train was approaching. He was warned by the engineer to get out of the way, but apparently did not hear the warning. He was struck about the side and fell forward on his head, which was severely bruised, but the injuries were not of a dangerous nature.

Vice-President—Miles S. Humphreys, of Boiler's Union. Secretary—Thomas A. Armstrong, of Typographical Union. Treasurer—Joseph Tatem, of Cordwainer's (Ladies Branch) Union.

Lecture.—Rev. Alex. Clark, A. M., of Cincinnati, will lecture this evening, in the First Methodist Protestant Church, East Common, Allegheny, on the subject "Within and Without." Tickets fifty cents, the proceeds being for the benefit of the Sabbath School. Some of the best singers of Allegheny have volunteered their services for the occasion.

Grand Lodge Officers of I. O. O. F.—William Curtis, Grand Secretary, together with part of the Grand Lodge officers of this State, arrived in the city yesterday afternoon and were guests of McFarland Lodge of Allegheny, last evening. They leave for Latrobe in the morning train.

Two additional civil suits have been entered before Alderman Humbert of the First ward, against parties on Troy Hill, heretofore held to bail on charges of selling beer on Sunday and the cases will come up for a hearing on Wednesday next.

About eleven o'clock last night an alarm of fire was sounded, and the engines ran hither and thither in search of a conflagration, but happily were unable to find any, and returned to their houses.

District Court.

THURSDAY, May 3.—Before Judge Williams.

The case of Hutchinson vs. Williams—action to recover $10,000, the amount of a special deposit stolen from the bank of the defendant—still occupies the attention of the Court. Witnesses were called to prove that the bank vault was insafe, and that the defendant was apprehensive of danger before the robbery occurred. S. Schoyer, Esq., testified that Mr. Williams expressed fears of the safety of the bank some time before the robbery, and endeavored to prevail upon him (the witness) to have the parties occupying the hall over the bank dispossessed of the premises. Other testimony was offered to the same import. The case is still on trial.

Narrow Escape.—Mr. Jacob Emah met with a very narrow escape during the severe hail and wind storm which prevailed on Tuesday evening. He had taken shelter from the storm beneath a newly completed brick building, of which he was contractor, on Pennsylvania avenue beyond the toll-gate, when a brick was blown down which struck him a stunning blow on the head. On recovering, he looked upward, and saw the front wall under which he was standing, falling forward. He had scarcely time to get out of reach of it when it fell with a terrible crash.

Notary Public.—Governor Curtin has appointed William F. Robb, Esq., son of Robert Robb, Esq., Notary Public for this city. Mr. Robb is a member of the Pittsburgh Bar, and is a very clever gentleman. He will make a prompt and efficient officer.

ANDREW JOHNSON ON APPOINTMENTS.

On the 19th of December, 1860, in his place in the United States Senate, as a member for Tennessee, Mr. ANDREW JOHNSON made some deliverances on the authority and duty of that body in the matter of nominations to office, which are eminently sound and specially deserving of consideration at the present time. Hear him.

"How has Lincoln been elected, and upon what basis does he stand? A minority President by nearly a million votes; but had the election taken place upon the plan proposed in *my amendment to the Constitution*, by districts, he would have been this day defeated. But it has been done according to the Constitution and according to law. I am for abiding by the Constitution; and in abiding by it, I want to maintain and *retain my place here and put down Mr. Lincoln, and drive back his advances upon Southern institutions, if he designs to make any. Have we not got the brakes in our hands? Have we not got the power?* We have. *Let South Carolina and her Senators back; let all the Senators come; and on the 4th of March next we shall have a majority of six in this body against him. This successful sectional candidate, who is in a minority of a million, or nearly so, on the popular vote, cannot make his Cabinet on the 4th of March next unless this Senate will permit him.*"

"Am I to be so great a coward as to retreat from duty? I will stand here and meet the encroachments upon the institutions of my country at the threshold; and as a man, as one that loves my country and my constituents, I will stand here and resist all encroachments and advances. Here is the place to stand. Shall I desert the citadel and let the enemy come in and take possession? No. *Can Mr. Lincoln send a foreign minister or even a consul abroad, unless he receives the sanction of the Senate. Can he appoint a postmaster whose salary is over a thousand dollars a year without the consent of the Senate?* Shall we desert our posts, shrink from our responsibilities, and *permit Mr. Lincoln to come with his cohorts, as we consider them, from the North, to carry off everything?* Are we so cowardly that now that we are defeated, not conquered, we shall do this? Yes, we are defeated according to the forms of law and the Constitution; but the real victory is ours—the moral force is with us."

No competent judge of style in literary composition would need external evidence to convince him that ANDREW JOHNSON made that speech. It is marked with all the excellencies and defects of his manner. But it sets forth strongly, and accurately, the power of the Senate in appointments to office under the general government. He had no idea the Senate was a machine to register the edicts of the President. He has no such idea now, whatever he may attempt to accomplish by bluster, by boldness, by obstinacy.

He recognized the fact that Congress had by law taken the power of appointing postmasters, whose compensation is less than one thousand dollars a year, from the President, and given it to the Postmaster General. He knew that by a majority of two-thirds in each of the two Houses, the President could be stripped of the right of nomination in all but the highest grades of appointments. As a Senator, he felt the dignity and importance of the body to which he belonged. He did not over-estimate it.

The following year, that is, on the 26th of July, 1861, Mr. JOHNSON returned to the subject, and said:

"Then, is the mere defeat of one man, and the election of another according to the forms of law and the Constitution, sufficient cause to break up this Government? No, it is not sufficient cause. Do we not know, too, that if all the seceding Senators had stood here as faithful sentinels, representing the interests of their States, *they had in their power to check any advance that might be made by the incoming Administration?* I showed these facts and enumerated them at the last session. They were shown here the other day. On the 4th of March when President Lincoln was inaugurated, we had a majority of six upon this floor in opposition to his Administration. Where, then, is there even a pretext for breaking up the Government upon the idea that he would have encroached upon our rights? Does the nation know that *Mr. Lincoln could not have made his Cabinet without the consent of a majority of the Senate? Do we not know that he could not have sent a minister abroad without the majority of the Senate confirming the nomination!* Do we not know that if any minister whom he sent abroad should make a treaty inimical to the institutions of the South, *that treaty could not have been ratified without a majority of two-thirds of the Senate.*"

The positions taken in these two speeches are impregnable. They have their foundations in the depths of the Constitution, in the genius of free institutions, in the reserved rights of the States, and in the inherent powers of the people. In assailing these positions now, not by argument, not by the citation of authorities, but by practical assumptions, he falls under his own condemnation; he stands self-convicted and self-sentenced. He is doing exactly what the Southern leaders falsely charged Mr. LINCOLN would do; and which he loudly called upon them to remain in their places and resist.

* * *

A FEW MONTHS AGO Mr. C. V. CULVER was a universal favorite in the district in which he lived. Now he has fallen into such disesteem that on Monday he was arrested at Reno, for conspiracy to defraud. The complainants are THOMAS HOGE, P. R. GRAY and JOHN DUFFIELD, of Franklin. Mr. CULVER was held to bail in the sum of $60,000, which he procured.

Mr. AUSTIN, the cashier of the Venango Bank, was arrested on similar charges, and gave bail in the sum of $80,000.

The citizens of Franklin have suffered more severely than those of any other locality by the failure. The following named persons are the principal losers:

James S. Myers	$61,000
Richard Irwin	40,000
L. D. Rogers	40,000
John Duffield	40,000
John Rynd	100,000
N. R. Bushnell	50,000
Thomas Hoge	50,000

Here are seven persons whose losses approximate $400,000. The aggregate losses of the people at Franklin are probably double that amount.

An affidavit has been made by HENRY R. LYLE and sent to the Auditor General, asking for the appointment of a Receiver for the Petroleum Bank of Titusville.

The firm of A. D. COTTON & Co. are reported to have effected a compromise with their creditors.

EUROPEAN EMIGRATION.

The war, infinitely costly in blood and treasure, yields compensations from without as well as within. The heroic manner in which the people and the government bore themselves through the protracted ordeal, elevated them in the respect of the leaders of European opinion. Not alone is this disclosed in the altered tone of public journals. It is manifested quite as palpably in the increased deference of Cabinets, and in the utterances of parliamentarians.

But, after all, perhaps the best tribute to the constancy, devotion and courage of the United States is found in the vast movements among the industrial populations of Europe to come over the ocean and cast in their lots with us. Before the war, while there were many things that enkindled interest, there were certain considerations that excited distrust. The incongruousness of servitude with our professions of admiration for universal liberty; the eager pursuit and ostentatious display of wealth, balanced against verbal contempt of factitious rank and distinction; the symptoms of rottenness supervening before the period of ripeness; all these indications had suggested doubts of permanence. But when the period of trial came, and there was found beneath the surface a genuine solidity of character competent to face the most formidable difficulties, to wrestle with the most adverse circumstances, and to pluck success out of despair, there was not only a general expression of applause, but an uncontrollable desire to plant themselves and their children on the theatre of the great events of which they had been astonished spectators.

Hence, emigration from Europe is this year on a much larger scale than ever before. In many districts it has had a considerable effect on the price of labor. Leading newspapers find it necessary to discourage the laboring population from falling into the movement. The London *Times* says, "it is a matter of regret that industrious men should, by false representations and delusive hopes, which have so often been exposed, be induced to leave their native homes to seek employment in America, where they will have to toil harder, and be less remunerated in proportion to the cost of the necessaries of life."

Such appeals are powerless. Laboring men and women in the British islands know full well that their condition cannot be made worse; that whatever change may befall must necessarily be an improvement. Besides they have an instructive perception, not clearly defined in their own minds, so as to be capable of intelligent expression, but still potent as a motive, that if they are to work for the Americans, the best thing for them is to go to America. They read the letters of friends who are already here, and learn that most advantageous changes have been wrought in the condition of many of them; and they are allured by the hope that like betterments might fall to their own shares.

These immense changes of residence on the part of numerous bodies of producers, not only stimulate and diversify industry in this country, but by raising wages in Europe, tend to equalize the conditions of labor on both sides of the Atlantic. This is the only true and safe tendency towards Free Trade, which many politicians talk flippantly about, but few or none are willing to help fairly to inaugurate.

REHABITATION.

We have insisted, in repeated instances, that it does not comport with the true theory of representative government to hold either wide districts of country or large masses of population, for long periods, in military subjection and without participation in political affairs. In our apprehension it has not mattered whether the people so held were black or white. Hence, we have been anxious that a plan of absolute reconstruction should be devised and brought forward with as little delay as practicable, and that after the acceptance by the Southern people and States of such conditions as might seem needful to secure both harmony and progress in the future, they should be readmitted to the family circle of the Union.

At the same time we have not felt it to be a greater hardship to the white people of the rebel States, or any of them, to be held by the Government in political subordination, than it was to the blacks to be stripped by their white neighbors of all political rights whatsoever. Indeed, we have not been able to shake off the conviction that it was fair to say to the rebel whites, touching this matter, "with what measure ye mete, it shall be measured to you again." There are four millions of blacks, that never produced a willing traitor. Yet the Democrats and Conservative Republicans think it justifiable to strip them bare of all political rights; to hold them in absolute subordination; to tax them without allowing them representation; and to admit no ray of hope of an improvement in their condition for many generations to come. We should rejoice to have the rebel whites relieved of all the disabilities they have incurred, in exchange for simple justice to these black loyalists. The prospect of rehabitation on such a basis, perfectly feasible six months ago, has been frustrated by the action of the President.

* * *

THE Reconstruction Committee of the House of Representatives have now demonstrated, by means of their Report, that the Republican majority of that body do not ask the exclusion of the Southern States, for any lengthened period, from representation in Congress. This feeling is still more clearly evinced, if possible, by the amendments offered by Mr. BINGHAM, of Ohio, and Mr. BOUTWELL, of Massachusetts. If the Congressional plan shall be modified as suggested by either of these gentlemen, no obstacle will remain to the restoration of Tennessee and Arkansas in the space of sixty days, and to other Southern States in ample season to have the delegations full on the opening of the next session in December. This is a point of importance in the discussion upon this topic which ought not to be overlooked.

The Shipping Business.

Before the Pennsylvania Railroad Company undertook the responsibility of the line of foreign steamships plying between this port and Liverpool, the vessels on their return voyages to the latter port always went to New York, on pretence of not being able to procure full cargoes outward here. We knew this to be totally unnecessary, but deemed it not worth while to take any further pains to correct any impressions respecting these European lines until we could have a line of our own. The arrangement proposed by the railroad company has now been fully established, and the effect is magical. The steamship Delaware has left here for Liverpool with a full cargo furnished here, and without needing to go to New York. Not only so, but a large amount of freight was left over for the next steamer of the line. We see now the benefit of having the railroad company standing responsible for the maintenance of the line. This, indeed, appears to have been all that was ever needed.—*Philadelphia Gazette.*

ATTENDANCE AT OBERLIN COLLEGE.—The total attendance in the different departments of the College at Oberlin this spring, is seven hundred and seventy; of which four hundred and twenty-five are gentlemen and three hundred and forty five ladies. Of the whole number two hundred and sixty-one are new students.

GENERAL NEWS.

A NEW ORLEANS letter says: One thing is quite observable at the Catholic churches, which Protestants might well learn everywhere, that all persons, rich and poor, black and white, kneel together in perfect equality. True, there are pews, and pews sold or rented; but these pews, especially in the old or French part of the city, are indiscriminately rented to black and white alike. I noticed in the old Catholic Church of St. Louis, which confronts you as you come up the river, some of the pews nearest the altar are occupied by colored people, and others scattered about the church, without any effort to discriminate between them and the white. The Catholic maxim is, and a catholic one it is truly, that "all men are equal before God."

AN ETHIOPIAN CHANGING HIS SKIN.—The Fredericksburg (Va.) *Herald* has the annexed curious statement: "We are informed of a singular case of change of color that is now going on in the person of a black man in Culpepper county, Va. Our informant has known the negro for fifteen years, and describes him to have been at one time as 'black as tar.' Within the last three months the negro has been gradually changing his skin. His hands are still dark, but from the wrists to the shoulders his arms are as fair as any white man's. His whole body is spotted, gradually changing its hue. It is a marvel in view of the fact that the negro has never had a day's sickness, and is healthy now."

THE PERRY MONUMENT ON LAKE ERIE.—Mr. Thomas Lawrence, of this city, is now engaged in erecting a monument to the memory of Commodore Perry, on Gibraltar, the summer residence of Jay Cooke, the American banker. The corner-stone of this monument was publicly laid in 1858 with impressive and imposing ceremonies. The monument fund then failed, and nothing more was done toward erecting the monument by aid of public contributions. Jay Cooke, having lately purchased the island, is about to complete the monument, and during the summer a splendid marble column will be erected on Gibraltar.—*Toledo Blade.*

A LONDON letter says: "I heard the other day, on good authority, a story about the great iconoclast of Chelsea (Carlyle), which may surprise Americans. He, like Thackeray, his friend Lord Ashburton, and others, had, a year or so before the civil war, invested a snug little sum of money in American stocks. When the war broke out, Thackeray and many others withdrew their investments; but Carlyle, though repeatedly advised to do so, declined. He even ordered that whatever interest came from what he invested should be put into United States securities."

THE Rev. Mr. Platt, rector of Calvary church in Louisville, whither he has lately removed from Petersburg, Virginia, is praised in a secessionist journal as "not only a most estimable man, but a very eloquent orator. *His dramatic power is of the highest order*, and, possessing the poetic expression of thought eminently, he is naturally one of the most popular of our clergy." Does this mean that there is a great deal of acting in Mr. Platt's performances?

JOHN RANDOLPH is said, upon one occasion, to have visited a race course near the city of New York. A flash looking stranger offered to bet him $500 upon the result of the race, and introducing his companion, said: "Mr. Randolph, my friend there, Squire Tompkins, will hold the stakes." "But, sir," squeaked the orator of the Roanoke, "who will hold Squire Tompkins after I give him my money?"

Unflattering Picture of the House of Commons.

[From the London Star, April 18.]

If DEMOSTHENES were alive in our day, and were afflicted with his early difficulties of elocution, he might find a severer school of practice than on the margin of the roaring deep. To attempt to address the House of Commons in favor of reform, and in front of a sea of howling Tories, would be the best possible test of the lungs, the articulation and the patience of a raw student of eloquence. It must be owned that what the Tories lack in argument they make up in noise. *The beastly bellowing of which O'Connell complained was as uproarious and vehement* on Monday night as at any time during the passages of arms which took place between the Irish orator and the statesman whom he designated Scorpion Stanstley. Every Conservative seemed inclined to do the lion's part, according to *Bottom's* definition of it—nothing but roaring *The Tories howled down their opponents when they could not reply to them. A running fire of the rudest interruptions, the coarsest contradiction*, strove perpetually to disturb the composure of every speaker who took the Ministerial view of the question It is somewhat difficult to understand why the rules which regulate the intercourse of gentlemen everywhere should be suspended in favor of a gathering of Tories, simply because they are seated under the roof of what is commonly called the greatest legislative assembly in the world. Certainly that workman's meeting would be regarded as grossly and inexcusably exceptional indeed which tolerated one-tenth of the *roystering, vulgar and uproarious* conduct in which Toryism rioted and reveled during the Parliamentary debate of Monday evening.

HANDLING BAGGAGE.—At railway stations there is often a rough and careless style of handling trunks and other articles of personal baggage, that is altogether inexcusable. By the checking system, which is admirably carried out on our railroads, the traveler is released from all apprehension of losing his baggage. But in what condition it will be restored to his hand, he must wait, trustfully and hopefully, to ascertain. And if his new trunk have a rent or two in its covering, or a corner or two turned inwards, he has no redress for the damage done to it. It is said that baggage is more rudely handled by porters in this country than in any other. Men whose daily business consists in handling baggage have undoubtedly hard work to do. But they get pay for it as such, and they should exercise more patience and care, to avoid the danger which is unavoidable if trunks are pitched and tossed about like blocks of wood. Not only the packages themselves, but their contents, are often injured in this way.

A widow lady of Danville, Kentucky took an orphan boy to raise, quite small; when he arrived at the age of eighteen she married him, she then being in her fiftieth year. They lived many years together as happy as any other people. Ten years ago they took an orphan girl to raise. Last fall the old lady died, being ninety-six years of age, and in seven weeks after, the old man married the girl they had raised, he being sixty-eight years old and she eighteen. Such is life.

SPECIAL NOTICES.

☞ AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

☞ RETROUVEY'S TURKISH BANDOLENIAN HAIR TONIC. THE DRESSING AND RESTORER OF THE AGE! TURKISH BANDOLENIAN. RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FOR SALE—FOR RENT.

FOR SALE,

A SMALL FARM of 50 acres, situate in Baldwin township, Allegheny county, Pa., 5½ miles from the city, on the Brownsville road. The improvements are a large two-story Frame House, with 10 rooms, double parlor, wide hall running through the house; water just at the door; a Bank Barn, 50 by 30 feet, and other out-buildings; a garden of excellent soil, containing one-half acre, planted with all kinds of dwarf fruit and vines; fruit of every kind; about 700 or 800 trees of best quality of grafted fruit. The soil of the whole farm is good. The very best of fencing; a beautiful lawn in front, planted with shrubbery and trees. For a country residence, it is not surpassed, and for a profitable investment, there is no question.

Also, the best Farm in Elizabeth township, containing about 90 acres, lying on the Monongahela river, immediately below Lock No. 3, on which is erected a large two-story Brick Dwelling House, one log and one Frame Bank Barn, corn-crib, wagon shed, brick spring house, granary, work shop, &c. About 30 acres of the above is first quality river bottom; the balance being limestone land, and underlaid with coal, and about 20 acres of limestone. There are two orchards of apple trees, in good bearing condition; peach, pear, plum trees and grape vines, &c. The land is well adapted for gardening purposes, being a short distance from the thriving borough of Elizabeth, creating a market at home for all the products. This property will be sold cheap and on good terms.

Also, a Farm of 117 acres, situate in Fallowfield township, Washington county, Pa., about 2 miles from the town of Bentleysville. The improvements are, first, a two story frame house with five rooms; second, a two-and-a-half story hewed log house; third, a No. 1 new barn, 60 by 40 feet; a good spring house, three large orchards of different fruit, apple, peach, pear, plum, quinces, cherry, &c.; 90 acres cleared; the remainder in good timber. The land is level and of the very best quality, and will be sold at a reduced price.

Also, a Farm of about 120 acres, in Fairfield township, Westmoreland Co., Pa. The improvements are a hewed log house, with kitchen attached, a log barn and a tenant house; a good apple orchard, peaches and cherries; about 80 acres cleared, the remainder in the very best white oak timber. The land is good. The location is very healthy. This property I will sell very cheap. Possession immediately.

Also, at gold prices, a Farm of about 143 acres in Fallowfield township, Washington Co., Pa., about one mile west of Lock No. 4, on the Monongahela river. The improvements are a two story log and frame house, a frame barn, wagon shed and other out-buildings; fencing generally good; a young orchard of apples and other fruit trees; 110 acres of coal of the best quality, and a vein of the best limestone; convenient to churches, schools, mills, &c. This property I am authorized to sell very cheap.

Also, a farm of about 200 acres, situated in West Wheatfield Township, Indiana county, Penna. The improvements are a good, comfortable, two-story Frame House, with 6 rooms, a large frame barn, carriage house, good corn crib, wash house, bake oven and a two-story stone spring house; about 150 acres cleared and in timothy and clover; a good orchard of apple, peach, pear and quince trees. The fencing is generally good. The land is of a good quality, abundance of limestone, and but a short distance from coal. This property will be sold very cheap.

Also, a Farm of about 240 acres adjoining the above. The improvements are a large two story Log House and a large frame barn; 175 acres cleared and under a good state of cultivation; a small apple orchard; a large two-story milk-house. These two farms united would make a first-rate Stock Farm, or will be sold separately.

Also, the best farm in Fairfield township, Westmoreland county, Pa., containing 240 acres; about 6 miles south of the Pa. Railroad. The improvements are two large hewed log houses; one of the largest and best frame barns in the township; two apple orchards. The whole farm is under a high state of cultivation. The fencing is all No. 1. The land is of the very best limestone; about 200 acres cleared, the balance in good timber. Possession on the first day of April, 1866. This property will be sold at a great bargain. The owner wishes to engage in other business.

Also, a Farm of 150 acres, situate in McCandless township, Allegheny county, Pa., about 8 miles from the city. The improvements are a Log House, a good barn, a young orchard of apple, peach and pear. I will sell this valuable property very cheap and on easy terms.

FINANCE AND TRADE.

THURSDAY, May 3, 1865.

Gold has still further advanced, being quoted in New York to-day at 127½. Government bonds steady, but without decided change. The demand for money is rather increasing, but there is a very good supply, and the market is easy at unchanged rates.

The New York *World*, of Wednesday, noticing the movements of the gold market, says:

Gold loans were easy at 1-16 per cent in the morning, and gradually declined to 1-32, with a pressure to lend. The short interest was tolerably well closed up to-day; and the speculators are now all long. When the dividends of $22,000,000 in gold, due to-day, are disbursed by government, and on the market, the question arises, who will buy that sum, at present rates, to carry and look at! If specie shipments are made to Europe at the rate of $1,000,000 per week, it will take some time for them to make an impression on $22,000,000. Furthermore, the $22,000,000 in gold requires about $28,000,000 in currency to carry them; and unless there is a short interest to borrow this gold at high rates, it will be difficult to maintain the present price. The amount of gold in the banks yesterday was about $8,000,000, when the price ranged about 126; and in what way an addition of $22,000,000, or nearly three times the amount, can be engineered to maintain the price above 126, is not very apparent, even as a stock-jobbers' argument.

—The statement of the United States Mint for the month of April, shows that the gold deposits from all sources amounted to $1,593,789 40, and of silver, to $21,399 44—in all, $1,615,188 51. The gold coinage in the same time was $1,392,200, and the silver $20,161 46—being nearly all half dollars. The copper coinage was in value $21,550, and covered 1,328,900 pieces, being mostly in one and three cent pieces. The number of pieces of all kinds coined during the month were 1,437,231, of the aggregate value of $1,441,141 23.

—Many applications having been made to the United States Treasury for specimens of the different fractional currency notes issued by the government for cabinets and albums, a proposition is under consideration, which, it is expected, will be favorably decided, to print the face of each note on one sheet and the back on another, and on the reverse of each half note to print the word "specimen," in bronze, which cannot be erased. These notes it is proposed to sell for half the price of the face, and redeem them, if presented, at the same value. It is believed that a considerable sum will accrue from their sale.

—The imports of dry goods are slacking off a little, but of general merchandise continue large. The total receipts at New York last week in foreign gold value was over six millions of dollars. With such an amount of imports the demand for gold to pay duties will not permit a decline in the premium.

—The New York *Times*, of May 2, says:

"Government securities held their ground quite stubbornly, despite the adverse influence on the original 5-20s of some extensive thirty-day options, put out by foreign houses, at 101¾@101¼, flat, May coupon off. Rumors were industriously circulated of the return of heavy lines of the bonds by the Scotia. Careful inquiry enables us to say that there was very little foundation for these rumors. The amount of the bonds brought back by this arrival did not equal an ordinary day's sales of any single one of the great dealers on Wall or Nassau streets. All of the importations available at the ruling figures, were speedily absorbed. The latest London quotations for the 5-20s (to the evening of the 21st of April) are 70¾@70½; showing a further decided improvement in that market, which closed very strong on an active investment demand, as reported in the correspondence of the leading houses in the foreign interest. The commission firms were very busy buying the coin-interest claim of the Five-twenty bondholders, most of whom were reinvesting the proceeds in one or another of the national funded stocks, Seven-thirties seemingly meeting with most favor from this class of purchasers. All issues of the Treasury notes were in brisk request and buoyant in price."

—Thus far in the current fiscal year the National Treasury receipts from internal revenue have been $263,360,309, or monthly average of $26,336,030, which would make the whole *year's income equal to three hundred and sixteen millions dollars.*

Dry Goods and Carpet Trade.

NEW YORK, May 3.—There is a moderate trade doing to-day, with a steady market. Goods are not likely to fall much more. Brown and bleached goods have been sold at very low prices lately by a few houses, but their extreme low rates are not to be taken as the market price. Many styles of French and British goods are scarce to-day, and in active demand, [illegible] through the auction houses, as now for good styles they could realize much more. Prints—Allen's, 16½; American, 18; Amoskeag, 15; Cocheco, 20; Dunnel's, 17; Garner & Co., 18; Lancaster, 16; Merrimac, 18; Merrimac W, 19; Pacific, 19; Wamsutta, 12½. In carpets there has been a fair trade doing, and prices remain very firm. The stocks of all desirable goods are reduced. The market for mattings showed a weakness at the last auction sale, and prices went lower. The boot and shoe trade is only moderately active, and prices are without material change. In the hardware trade, the jobbers are still doing a fair business with the west. California is also taking a moderate amount of goods, but the southern is light and nearly all over for the season. The market remains firm for about everything but stocks, sellers accumulating a little more in some articles.

Review of the New York Grocery Market

(From the Commercial List, May 2.)

Coffee—The market continues quiet, the demand being only moderate, without particular change in prices, though the tendency is rather in buyers favor, especially for the medium and lower grades, which are plenty and neglected. The sales are 2540 bags Rio, per Parkside, at 18¼c, 160 Angostura, 19; 80 Java, 26; 325 pockets Singapore, part 24 gold; 5015 do Rio, per St. Ursula, 800 do, per Zingara, 706 Santon, per Adelgunde, 750 Laguayra, and 200 St. Domingo, on terms not made public. The stock of Rio in the country is 76,681 bags here, 11,000 in New Orleans, 27,000 in Mobile, and 14,000 in Baltimore—total 104,382 bags.

Sugar—On Saturday last there was but little done in raw, but Monday, refiners pretty generally entered the market, and a large business was done, the sales reaching about 3100 hhds, the decline in gold, however, had a tendency to weaken the market a little, but the sales made showed no particular change in prices; yesterday the business was again moderate, but with some reaction in gold, prices were supported, and the market closed steadily at our quotations of Friday last. Refined is not active, and prices are rather easier; hard, 15½@15¾c; soft white, 14½@15; and yellow, 13½@14½. Messrs. Stuart quote their best crushed, granulated and ground, 15¾c; white A, 15; and yellow C, 14¼ cash. The sales of raw are 3336 hhds Cuba, at 10¼@12c; 48 do inferior, 9; 128 do clarified, 12¾@13¾; 479 Porto Rico, 10¾@13¾; 25 barbadoes, 11; 1739 bxs Havana, 9¼@14¼; and 4517 bags brown Pernambuco, 10½, 4 mos. By auction, 260 bxs damaged Havana sold at 12@12½c, cash.

Rice—Rangoon continues in good demand, and with a firm market, prices are well supported; we notice 1600 bags in lots, at $8,87½@9,12½; 2000 do, $4,12½@4,37½ and to arrive, 1000 do, at $4@4,25, both gold, in bond.

The Government Securities were firmer this afternoon and in demand; 1881 Coupons, 108¾@108½; Five-Twenty Coupons, 101⅞@102; Ten-Forty Coupons, 96¼@96½; Seven-Thirty Notes, 101⅞@102; Western Union Telegraph, 60; Quicksilver, 54; Erie, 74⅝; New York Central, 92½; Hudson River, 110½; Michigan Southern, 178½; Illinois Central, 121.

The following are the principal changes in the statement of the public debt: There has been an increase in Five Twenties, amounting to $582,000, while the issue of Compound Interest Notes has been reduced $5,000,000, and of Five Per Cent. The produce markets are quiet but steady with a fair local demand for most of the leading commodities, while prices have undergone no material change.

GROCERIES—Cuba Sugar is selling in a regular way at 12 to 13; Porto Rico, 13 to 14; Crushed 17@17½; "A" Coffee 16¼@16½; "B" do, 15½@16. PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, May 3, 1866.

CRUDE—There was again a very good demand for Crude to-day, and the market ruled firm, with an upward tendency. Quotations may be fairly given at 13½@14, bbls returned and in bulk, and 18¾@19, bbls included—with one sale of heavy gravity at 14½. The advices from the east continue favorable, while at the wells, holders are firm at $4¼ to $4½, and the supply is reported light, and a great many of the well owners, it is said, are sold ahead. The reported sales to-day reached in the aggregate, over five thousand barrels, as follows: 800 bbls, in bulk, at 13½; 1000 at 13¾; 200 at 13¾; 225 at 14; 114 at 13¾; 300 "Smith's Ferry" at 13½; 737 at 13¾; 100 at 13½; 528, low gravity, at 14; 600 "Franklin oil" at 14½; and 700, to be delivered in Philadelphia, at 25, packages included. In addition to the above, it was reported that a sale of 5000 bbls, for July delivery, had been consummated, at 16c.

REFINED—There was quite an active demand for bonded oil to-day, both for present and future delivery, and while the market is firm and somewhat excited, the extreme views of refiners has a tendency to retard operations. Sale of 500 bbls for May delivery, in Philadelphia, at 41; 1000 for June, at 42; 500 for June, at 43; and 500 for July, at 44½. We are cognizant of 34½ having been offered for May, free on board cars here, and refused. For August delivery, in Philadelphia, buyers are offering, 45@45½, and 46@47 for September. Free Oil is quiet but a shade firmer, being quoted at 52@53.

NAPTHA AND RESIDUUM—There is apparently no demand whatever for Naptha, while Residuum is quiet and dull—last sale reported, $5¼, delivered in Philadelphia.

ARRIVALS—The arrivals of oil by the Allegheny river, since our last report, were as follows:

D. M. Edgerton	1500	Fisher & Bro	2400
Brewer & Burke	800	Davis & Bro	1800

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, May 3, 1866.

CATTLE—There was quite an active demand for cattle this week, and with compartively light arrivals, a limited supply, and an unusually large number of buyers in attendance, the market ruled very firm, and good cattle sold readily at extreme prices. The favorable character of the advices from the East had a tendency to stimulate shippers, and at the same time stiffen holders, and the great proportion of the cattle on sale sold readily, and that, too, at full rates. Prime fat cattle, suitable for retailing in the eastern markets, sold at from 7¼ to 7½, gross, and extra may be fairly quoted at 8 cents. It is said that the best grades of cattle brought as much here as they did in Philadelphia on Monday last, and upon the whole, for reasons already stated, the market ruled in favor of holders, and, having the advantage of buyers, they were not slow in making the most of it. Common and fairish cattle sold at from 6 to 6½, while there were [illegible] hear of. The arrivals of this particular class of stock have been very light for some time past, which is owing, we presume, to the fact that they meet with very slow sale, and will barely pay for feed bills and cost of transportation. Good fat cattle have been in very good demand for six or eight weeks, and generally, at paying prices to the drover, while inferior do not appear to be wanted, and those who ship this grade of stock to market, are almost certain to incur a loss.

SHEEP—There was again a brisk demand for sheep this week, and with a rather light supply, and quite a number of eastern buyers in attendance, the market ruled firm and active, and prices were well sustained. Sheared sheep sold at from 5 to 6 cts, gross, and wooled at from 6¼ to 7 cts. The demand seems to be restricted mainly for shorn, as the sales were quite large, while but very few wooled sheep changed hands. Nothing doing in stock sheep and no Lambs offering.

HOGS—The arrivals were rather light this week, and while there was no apparent falling off in the demand, prices have undergone little or no change. To-day, good to prime averages may be fairly quoted at 9 to 9½, gross, while light averages would not command more than 8¼@8¾. The season is fast approaching when the demand for fresh pork, both here and in the east, will fall off, and operators are making their calculations accordingly.

BOATS LEAVING TO-DAY.

Nora	Devinney	Cincinnati.
Yorktown	Ebbert	St. Louis.

RIVER, WEATHER, ETC.

The river was about stationary last night, with seven feet in the channel by the Allegheny marks last evening. The weather continues quite cool, and at noon yesterday the mercury stood at 48 degrees. Ice froze on all pools of standing water in this vicinity, and the ground freeze was considerable. Business at the landing was very moderate.

The Pine Grove, Capt. Anniwalt, was the only arrival yesterday from Cincinnati. Among other items of her cargo, we notice sixty-nine bales of cotton, bound for New York.

[illegible] Tuesday. The Glasgow and Armadillo were advertised to leave the same port on Wednesday for this port. The Importer, Capt. John Noss, was advertised to leave St. Louis for this place on Monday last. The Kenton and Nightingale were also loading at the same time for this port.

The Nora, Capt. Devinney, will leave this afternoon positively for Cincinnati. The Nora has superior cabin accommodations, and passengers could not select a better boat to travel in. Our old friend Mr. Wm. Blackstock has charge of the office, and will see that every one is made comfortable.

The Yorktown, Capt. G. W. Ebbert, is advertised to leave this day for St. Louis. If an intimate acquaintance of upwards of fifteen years justifies us in recommending Captain Ebbert to the public, we can most readily give the recommendation. To Pittsburghers, he is so well known that any of them going his way are sure to go with him whenever they have the opportunity, and strangers travelling with him once always seek the second opportunity.

We are under obligations to the clerk of the steamer Citizen for an advanced copy of her manifest by mail. We wish that we could get the clerks of other steamers to pursue the same course.

The Mammoth steamer tug Ajax was to have left Portsmouth, Ohio, on Tuesday last, with twenty barges in tow, for New Orleans, being the largest tow ever taken south at one time by one boat.

The Messenger, Capt. Jesse Dean, is filling up steadily for Memphis and New Orleans, and will soon be ready to take her departure.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP

PITTSBURGH, January 11, 1860.

DR. KEYSER:—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this you desire to.
WM. WILSON,
Alderman, Fifth Ward

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough.
JOHN DARIN,
Robinson street, Allegheny.

PITTSBURGH, December 31, 1851.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what it has done in my case.
JOHN C. LITTLE,
Witness: R. M. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1859.

A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough, which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.
JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. P. Maher, both of Blairsville, Pa., told us they would not be without it in their families, in fact, all who use it once want it again.
Yours, respectfully,
J. S. WATTERSON & SONS.
January 30, 1860.

PITTSBURGH, November 18, 1858.

DR. KEYSER:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever found purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.
Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1858.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken.
J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of the bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine. would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper.
E. F. PRATT.
Messenger Common Council, Pittsburgh, Pa.

N. B.—I am no stranger to my fellow-citizens, and all who entertain doubts can consult me personally.
E. F. P.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad was it that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.
(Signed) J. W. SIMONTON,
No. 24 Liberty street, Pittsburgh, Pa.
January 9th, 1860.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the sieze, we coughed ourself to Keyser's, No. 140 Wood street, procured a 50 cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable an adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1865.*
